

WATCHMAN®

Range of Oil Level Monitoring

You don't want your oil tank
to run dry. It's inconvenient and
it can prove expensive.

www.kingspanenviro.com/sensor

POWERED BY KINGSPAN SENSOR

WATCHMAN[®]
SONIC

**MONITOR YOUR
OIL HEATING LEVELS
AND NEVER RUN OUT**

Monitor your oil heating levels from the comfort of your own home, giving you peace of mind that you won't run out.

The WatchmanSonic electronic measuring gauge

Features

- One model fits all
- Quick and easy to install
- Suitable for steel or plastic tanks
- 12 months replacement guarantee
- Low power consumption
- 200 metre transmitter to receiver range
- Measures tanks up to 3 metres in height
- Option of audible setting sending out a buzzing tone when oil levels run out

How does it work?

- 1** The transmitter sits on top of the tank and using ultrasonic level measurement techniques, constantly measures the level of oil in the tank.
- 2** It then transmits that information to the receiver which is plugged into an electric wall socket, located in a convenient place within the house.
- 3** The height of the liquid is displayed on a LCD screen on the receiver. The householder can monitor the level of oil in their tank from inside their home.
- 4** When the level of oil in the tank gets below 10%, the fuel dispensing pump symbol appears, indicating to the householder that it is time to order some more oil.

WATCHMAN®
ALARM

**PROTECT YOUR OIL
BEFORE IT'S TOO LATE**

The revolutionary electronic measuring gauge which will set off an alarm at the receiver in the house when there is a dramatic drop in oil levels.

The WatchmanAlarm electronic measuring and alarm gauge

Features

- Audible Alarm
- One model fits all
- Quick and easy to install
- Suitable for steel or plastic tanks
- 12 months replacement guarantee
- Low power consumption
- 200 metre transmitter to receiver range
- Measures tanks up to 3 metres in height
- Option of audible setting sending out a buzzing tone when oil levels run out

How does it work?

- 1 The transmitter sits on top of the tank and using ultrasonic level measurement techniques, constantly measures the level of oil in the tank.
- 2 It then transmits that information to the receiver which is plugged into an electric wall socket, located in a convenient place within the house.
- 3 The height of the liquid is displayed on a LCD screen on the receiver. The householder can monitor the level of oil in their tank from inside their home.
- 4 When the level of oil in the tank gets below 10%, the fuel dispensing pump symbol appears, indicating to the householder that it is time to order some more oil.
- 5 In the event of the oil level in the tank dropping at a rate that is not common for a domestic oil tank (more than 1.5cm a minute) the receiver will emit an audible alarm.

WATCHMAN®
ANYWHERE

REMOTE OIL LEVEL MONITORING KIT

Take control and monitor your heating oil levels. Anywhere.

Download the free app from:

With the WatchmanAnywhere you can monitor your oil levels using modern technology

When you want an update on what's in the tank right now, you can just go online and look - from the office, even from the beach.

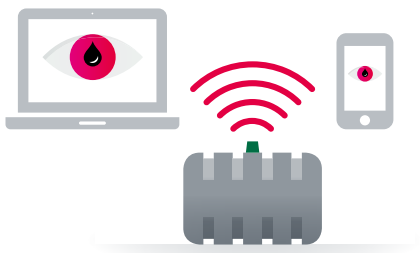

Watchman Anywhere can even send regular oil-level reports straight to your phone or email.

Features

- First 12 months free subscription
- Affordable annual subscription thereafter
- Easy to install
- Monitor oil levels anywhere
- Peace of mind

How does it work?

The sensor in the Watchman Anywhere uses ultrasonic pulses to keep an eye on how much oil is in your tank. Its built-in SIM card sends this information to our secure data centre. This data then flows into your personal online dashboard, which shows your current oil level in a simple format.

You can view your dashboard using any computer, tablet or smartphone. It's easy to check-in, and you can do it from anywhere in the world, at any time of the day or night.

Any web enabled devices

iPhone and Android app

Weekly text and email alerts

When you subscribe to our service, we'll send you a weekly update telling you how much oil is in the tank.

For your first year, the annual subscription service is completely free. Visit www.watchmananywhere.com for information on our annual subscription fees.
